this book develops a comprehensive framework for ethics in the helping professions based on bioethicist bernard gert s theory of common morality the prevailing model of ethics education is built upon adherence to codes of ethics applied largely through the use of decision making trees while a firm understanding of a professions code of ethics and all relevant laws is essential to responsible practice this approach to teaching ethics excludes the opportunity for students to acquire a holistic and grounded understanding of moral action the framework proposed in this text moves beyond

codes of ethics and allows students to develop a cohesive sense of ethical reasoning that both validates their moral intuition and challenges moral assumptions the theory of a common morality uses a systematic step by step approach that readers and practitioners can apply to all questions of moral action and behaviour while there is no such thing as a single right answer to any ethical question by following this approach practitioners can confidently eliminate the bad decisions allowing them to feel more secure in their decision and practice

an indispensable guide to visual ethics this book addresses the need for critical thinking and ethical behavior among students and professionals responsible for a variety of mass media visual messages written for an ever growing discipline authors paul martin lester stephanie a martin and martin rodden smith give serious ethical consideration to the complex field of visual communication the book covers the definitions and uses of six philosophies analytical methods cultural awareness visual reporting documentary citizen journalists advertising public relations typography graphic design data visualizations cartoons motion pictures television computers and the web augmented and virtual reality social media the editing process and the need for empathy at the end of each chapter are case studies for further analysis and interviews with thoughtful practitioners in each field of study including steven heller and nigel holmes this second edition has also been fully revised and updated throughout to reflect on the impact of new and emerging technologies this book is an important resource for students of photojournalism photography filmmaking media and communication and visual communication as well as professionals working in these fields

bernard williams ethics and the limits of philosophy is widely regarded as one of the most important works of moral philosophy in the last fifty years williams s powerful sceptical critique of the morality system sent shockwaves through philosophy the implications of which are still being reckoned with thirty years later in this outstanding collection of new essays fourteen internationally recognised philosophers examine the enduring contribution that williams s book continues to make to ethics after a detailed topical summary of ethics and the limits of philosophy by adrian moore the full scope of the work is assessed including the role of aristotle and hume in williams thought and his arguments concerning the history of philosophy the nature of virtue the good life practical reason and deliberation and the themes

of duty blame and inauthenticity ethics beyond the limits is required reading for students and researchers in ethics metaethics and moral psychology and highly recommended for anyone studying the work of bernard williams

paul ricoeur s entire philosophical project narrates a passion for the possible expressed in the hope that in spite of death closure and sedimentation life is opened by superabundance by how the world gives us much more than is possible ricoeur s philosophical anthropology is a phenomenology of human capacity which gives onto the groundless ground of human being namely god thus the story of the capable man beginning with original goodness held captive by a servile will and ending with the possibility of liberation and regeneration of the heart underpins his passion for the more than possible the essays in this volume trace the fluid movement between phenomenological and religious descriptions of the capable self that emerges across ricoeur s oeuvre and establish points of connection for future developments that might draw inspiration from this body of thought
